

AANCHAL SHARMA

The Girl Who Coded

Software Engineer

Professionally coding since:
1st July 2016

Weapons I use:

Javascript ReactJS Python

I am not Dumbledore but I do feel like a hero sometimes:

- △ Earned appreciation from the CEO for the sincere efforts put in a project.
- △ I had been helping my father with his business from a very young age which made me thick-skinned & helped me to develop persistence.

Dobby says I have other superpowers too:

HTML, CSS, Material-ui, SQL, NoSQL, AWS, NodeJS, Storybook, Jest, Chrome dev tools, React dev tools, Redux dev tools, Linux, Git

Springdales Public School,
Jagadhri

9.4 CGPA

2010

Haryana Engineering College,
Jagadhri

Computer science and
engineering

82%

2012

Agile media labs pvt ltd,
Chandigarh

77%

2016

Dobby is a free elf

To recreate some of my magic potions:

CMS Editor (WYSIWYG): Mix some React with Redux and Firebase. Add Material-ui and voila! Fast and beautiful!

Content versioning: To let our clients go back in time and fix things.

Recommender System: Add some word2vec or FastText to a lot of Python. Store in a password tight Amazon DynamoDB. This helped boost the CTR by upto 30% on some sites.

Campaigns Dashboard: Mix together ReactJS, NodeJS and Material-ui. Add SNS-SQS on top.

This thing you are reading: Mix lots of creativity and imagination with hours of hard work!

Just in case you want to know more about me:

Birthday: 11th March 1995

Languages: Hindi (Native), English (Proficient), Spanish (Rookie)

Hobbies and Interests: Programming, Sketching, Reading, Collecting coins

Where to find me:

You can ask your owl to drop a letter at:
Panchkula, India (134109)

Or you can use one of those old school ways!
